EXPERIENCE

ATDEV, Dominican Republic - *Web Developer Intern*

May 2023 - July 2023 | 40 hours/week

I was trained by a tech lead, a senior full-stack developer, and was working and learning with a UI/UX and QA who guided me through the process of becoming a web developer capable enough to do the job and be admitted by the company.

ATDEV, Dominican Republic - *Front End Developer*

August 2023 - TODAY | 40 hours/week

The past year has been a whirlwind of learning and development as a front-end developer. I've gone from building basic user interfaces to implementing interactive features that elevate the user experience. Collaborating with the team on diverse projects has expanded my skills and exposed me to the cutting edge of web development.

Personal Projects - *Software Developer*

2020 - PRESENT
